<b>1 Program 1: “Patent Protection”</b>	<b>1</b>
<b>2 Program 2: International Promotion of European Software</b>	<b>1</b>

### **1 Program 1: “Patent Protection”**

Protection of Europe from a US-like patent system which would play against the development of open source software, independent software makers and independent ecommerce in Europe.

### **2 Program 2: International Promotion of European Software**

International promotion of European Software for Linux and European Free Software.
